

Northstar Technologies — Remote and Hybrid Work Policy

Fictional corporate policy | Version 1.0 | Effective 2026

Hybrid Schedule

Eligible teams normally work from the office three days per week and remotely two days per week. Exact office days are determined by the team manager.

Core Availability

Employees working remotely must remain reachable during core hours of 10:30 AM to 4:30 PM unless on approved leave or an agreed schedule exception.

Equipment

The company may provide a laptop, monitor, headset, and other approved equipment. Employees are responsible for reasonable care of company equipment.

Home Workspace

Employees should maintain a safe and reasonably private workspace suitable for business calls. Confidential documents should not be visible to unauthorized people.

Security

Company systems must be accessed using approved devices, authentication methods, and security controls. Public computers must not be used for confidential company work.

Meetings

Employees should join scheduled meetings on time. Cameras may be requested for customer meetings, team ceremonies, interviews, or collaborative sessions.

Productivity

Remote work does not change performance expectations. Employees remain responsible for deadlines, quality, documentation, and collaboration.
